**The easy-to-use Alpha II Registry provides the technology and support needed to achieve maximum reimbursement.**

As we enter the second year of the Quality Payment Program, thousands of individual clinicians and group practices still struggle to comprehend and untangle the complex web of the Merit-based Incentive Payment System (MIPS) measures, deadlines, and penalties.

The Alpha II Registry was designed to empower and enable all clinicians to effectively transition to value-based care, while turning this **complexity into simplicity.**

## Absolutely the Most Comprehensive and Easy-to-Use MIPS Registry Available

The Alpha II Registry helps navigate your path to reporting on all parts of MIPS:

- Maximizing your **Quality** performance score
- **Promoting Interoperability** scoring based on Base + Performance + Bonus
- Providing full attestations for **Improvement Activities** such as care coordination, beneficiary engagement, and patient safety

## Expert Guidance. Complementary Solution Suite.

For more than 35 years, Alpha II has been on the forefront of healthcare rules and regulations—gathering, analyzing, and interpreting healthcare coding and billing to help clinicians remain compliant and avoid negative payment adjustments from CMS. Our experience with the previous PQRS and MIPS programs, along with consistent education on the updates and revisions applied year over year, has enabled us to deliver a MIPS registry solution suite that

- integrates with a variety of practice management and EMR systems;
- helps to ensure outcomes and attestation requirements have been completely met; and
- provides performance metrics and real-time feedback scoring through our **MIPS dashboard.**

## Maximizing Your MIPS Score

Don't wait for feedback from CMS after you submit your MIPS data. Providers must be proactive to maximize their MIPS scores for the 2018 performance year. Empower your clinicians with "actionable feedback" from the [Alpha II Registry](#) dashboard and achieve maximum **RE**imbursement for the Quality, Improvement Activities, and Promoting Interoperability performance categories. Your complete path to exceptional MIPS results begins with Alpha II.

### Alpha II offers registry solutions to meet every level of participation

	MIPS Classic	MIPS Choice	MIPS Complete <i>(RECOMMENDED)</i>
<b>Solution Options</b>	Participate in the Quality Measures Only for Positive Incentives	Choose Improvement Activities OR Promoting Interoperability	Maximize Incentives for All Reportable MIPS Categories

<b>Annual Pricing Per Provider (NPI)</b>			
<b>Pricing</b>	<b>\$375</b>	<b>\$499</b>	<b>\$699</b>

## Peace of Mind in Data Security

In addition to being the most comprehensive Registry on the market, the [Alpha II Registry](#) may also be the most secure. It was one of the first organizations to achieve full accreditation with the Data Registry Accreditation Program (DRAP) from the Electronic Healthcare Network Accreditation Commission (EHNAC). The nationally recognized, third-party review ensured confirms Alpha II's ability to meet privacy and security guidelines, HIPAA, HITECH, Omnibus Rule, and ACA requirements, as well as best practices in technical performance, business processes, and resource management.
